Earthquake Industries Inc. delivers the very best in vibration equipment. Earthquake's new EQM line of Mini-Electric Vibrators has all the great features of our Ultra Heavy Duty line but at a fraction of the size. The EQM line consists of 4 sizes ranging from 0-80lbs of centrifugal force at 3600 VPM. Each vibrator has permanently lubricated bearings and a heavy duty totally enclosed housing to withstand the toughest conditions. The EQM Mini-Electric Vibrators are ideal for small hoppers, chutes, feeding and compacting applications. The Zero maintenance, silent operation and low cost make the EQM line a favorite in food, chemical and pharmaceutical industries. Earthquake's "lowest price promise" makes the EQM vibrators the best buy in the business.

MODEL	FORCE		VOLTAGE AMPS		DIMENSIONS Inches / mm					WEIGHT		dB
	lbs	N	V	A	A	B	L	W	H	lbs	kg	
EQM - 20	20	89	115	0.3	1.25 / 33	3.66 / 93	6 / 152	4.5 / 113	3 / 76	4.8	2.2	59
EQM - 40	40	178	115	0.3	1.25 / 33	3.66 / 93	6 / 152	4.5 / 113	3 / 76	4.8	2.2	59
EQM - 60	60	267	115	0.3	1.25 / 33	3.66 / 93	6 / 152	4.5 / 113	3 / 76	5	2.3	60
EQM - 80	80	356	115	0.3	1.25 / 33	3.66 / 93	6 / 152	4.5 / 113	3 / 76	5	2.3	60

dB at 1 meter on A scale. All units available in 230 volts
